## (#YA-0180BU) Tornado High Speed Cooling Fan (BU) 30x30mm for Motor Heat Sink

Model : YA-0180BU

Tornado High Speed Cooling Fan (BU) for Motor Heat Sink (30x30x10mm)

Description:

?Need something more powerful than your existing motor / ESC fan? This is exactly the fan for you.

?Yeah Racing Tornado Cooling Fan has Ultra High Speed. You need unmatched performance that this fan delivers. This dual ball bearing fan flows up to 100% more air than other similar Fan.

The maximum power input voltage is 8.4v (2 cells Li-Po)

Feature:

?For: ESC / Heatsink / Motor

?Color: Blue

Specification:

?Dimensions: 30 x 30 x 10mm

?Bearing: Dual Ball Bearing

?Operating: Voltage 5V

?Start-up Voltage: 3V

?Power: 1.40W

?Fan Speed: 14000 R.P.M (±20%) at 25¢J, after 3 min. rotating.

?Max Air Flow: 5.501CFM.

?Current: 0.28A

?Weight: 9.0g

?Connector: JST

Include:

?Tornado Cooling Fan (1 Pc)
