## (#XTA-T105) Hackmoto XTA 10.5T 540 4450KV Brushless Sensored Motor (Discontinued)

Model : XTA-T105

Yeah Racing Hackmoto XTA 10.5T 540  
Brushless Sensored Motor #XTA-T105

Description:

Hackmoto XTA motor is the second Gen Hackmoto Motors with lots of improvements in terms of design, engineering and material and is exquisitely crafted to achieve high performance in demanding environments. The result speaks for itself and was very competitive to even the most high-end motors in the market with its low friction, low heat, low power consumption, low wearing with high power output characteristic.

The new Motor is equipped with the Xtreme Timing Advancement System (XTA&#8482; ) for precise timing and turbo timing as well as physical timing set ups when used with Hacktronic ESC.

Feature:

?Size:540

?For: 1/10 RC Car

?Material: Aluminum

?Color: Gunmetal

?XTA&#8482; Timing (-3 to +3 Step-less adjustment)

?Premium Quality Ball Bearing Minimum Friction

?High Purity Copper Winding

?Removable/Replaceable Rotor

?High Power Neodymium Magnet

?Premium Quality Material for Minimum Heat and Energy Loss

?Sensor-based for Excellent Torque and Low-Speed Smoothness

?Sensor-based for Precise Timing and Turbo Timing function for exceptional Acceleration and

Discontinued > (#XTA-T105) Hackmoto XTA 10.5T 540 4450KV Brushless Sensored Motor (Discontinued)

## (#XTA-T105) Hackmoto XTA 10.5T 540 4450KV Brushless Sensored Motor (Discontinued)

Top Speed. (With Hacktronic ESC)  
?Aluminum Endbells For Light Weight and better heat dissipation  
?Venting Holes Engineered Carefully For Efficient Air Flow and Cooling

### Specification:

?Turns: 10.5T  
?Watts: 245  
?KV: 4450  
?LiPo: 1-2S Lipo  
?Weight: 160g

### Include:

?Hackmoto XTA Motor (1 pc)  
?Sensor Cable (1 pc)
