Model : TATT-S01BU  
(#TATT-S01BU) Aluminum Essential Conversion Kit For Tamiya TT02B Blue

Description:  
Introducing the Yeah Racing Aluminum Conversion Kit For Tamiya's TT02B, this kit consists everything you need to upgrade your TT02B to unleash its full potential as the ultimate racing buggy or backyard basher! On the stock Tamiya TT02B there are an extensive amount of plastic parts, which consists a lot of play in the suspension. This creates inconsistency in the suspension geometry and will make your car hard to drive, especially on offroad surfaces where your suspension will work twice as hard when compared to on road. By upgrading your TT02B with this upgrade it, it unleashes it's full potential. Yeah Racing exquisitely use the premium quality of material coupled with precise CNC cutting to manufacture all the parts in the conversion kit. The result is astonishing performance and durability upgrade due to the minimum friction and flex within the car's suspension system as a result.

This is the ultimate upgrade kit for people who are sick of seeing original plastic parts breaking over and over.
