

(#YT-0149BK) Yeah Racing Multi Function Car Setup Stand for 1/10 On Road Black

Model : YT-0149BK
(#YT-0149BK) Yeah Racing Multi Function Car Setup Stand for 1/10 On Road Black

Description:

Introducing the Yeah Racing Car setup stand featuring a carbon fibre top plate and with aluminum side rails! Carbon Fibre was chosen as the top plate as it is less prone to bending when compared to aluminum allowing for a more sturdier car stand. Also has pre drilled holes which allows this car stand to act as a shock stand for rebuilding shocks, markings indicating which corner the shock was from will help you manage your shocks easier as well! Comes with foam padding to provide anti-slipping when placed on your pit table!
