Engine Ball Bearing 13x24x6 mm (1pc)

No image

Model :

This product has been discontinued

Features :

?Size: 13X24X6mm (Inner x Outer x Width)

?1 pcs included

?High Sealability

?High Spinning Speed

?2 Face Rubber Sealed

?For Engine Use (Hobao / OFNA Hyper 21 Engines, SH Engines)

Ball bearings should always be your first upgrades; that reduce friction for less rolling resistance, and that means higher speed and longer the running times. Ball bearings hardly require maintenance and last a lot longer than stock Oilite bushings.

Our Metal Sealed Yeah Racing Ball Bearings have the lowest resistance. They are manufactured perciously by Aircraft quality stainless steel. Pre-lubricated with light protection oil, not any grease to ensure its excellent performance!
